Use a Wireless Controller for control anywhere in the home

Use with a Smart Home device app to control with a smart phone

Use with a Smart Home speaker for voice control

Tunable White LED Lighting

Select from 2700K – 5000K and all white color temperatures in between. Tune the white light at any time to mirror outdoor lighting and synchronize with the body's circadian rhythm.

Smart Home compatible

Easily create a personalized lighting experience at the click of a button or by the sound of your voice with a compatible Smart Home device.

Why buy anything else?

Get the white color temperature tuning and simplicity of TandemLED lighting for the same cost as regular LED lighting.

WAV Smart Control™ products work with Zigbee-enabled smart home hub products available from several manufacturers.
